

Gelato

Gelato is the ice cream of Italy. Our gelato is noticeably denser than its American cousin, yielding a rich and creamy texture with intense, mouthwatering flavor. Our gelato is created with an artisan's approach. As you taste your first bite of our gelato, you will find that the powerful, yet delicate flavor is an experience far removed from your typical ice cream.

Sorbet

Sorbet is very similar to gelato, but it is made with real fruit and no dairy. Our sorbet is so smooth and velvety you'll have a hard time believing it's dairy free. Angelo's makes European style sorbet noted for its distinct flavors and ultra-smooth texture.

Italian Ice

Our Italian Ice is dairy-free, gluten-free, cholesterol-free and fat-free. It is an extremely refreshing treat and the perfect indulgence on a hot summer day. We offer several innovative lines of Italian ice including an ultra-premium fresh fruit Italian ice as well as fortified and sugar-free lines for schools, hospitals and assisted living facilities.

Soft Serve

Our soft serve gelato is an evolution of our premium Italian-style gelato, reworked in a softer key, leaving a uniquely creamy sensation on the palate. We also offer our dairy free, sorbet made with real fruit for soft serve applications as well. We now also have the ability to infuse protein, energy, CBD and alcohol into almost all of our gelato and sorbet flavors for a deliciously different soft serve experience. Our energy, CBD and protein formulations are 100% water soluble. Each of these proprietary blends have been formulated so that they can be added to our liquid soft-serve mixes without changing the taste or texture of these delectable desserts.

BROAD SPECTRUM CBD

Our CBD is a premium, fully compliant formulation that delivers the calming benefits of cannabis without the high that comes from ingesting THC. Our broad spectrum CBD will reduce pain, anxiety and inflammation far better than any products containing CBD isolate due to a phenomenon called "the entourage effect". The entourage effect is when the terpenes, flavonoids, polyphenols and other cannabinoids work synergistically to enhance the effects of CBD. Each six-ounce serving contains inositol (vitamin B8), MCTs, an eight terpene blend, 25 mg of extracted cannabinoids (Cannabidoil (CBD), Cannabigerol (CBG) and Cannabidivarin (CBDV) and 0% THC.

NATURAL ENERGY

Our natural energy formulation combines the naturally occurring caffeine derived from whole green coffee beans, with d-glucuronolactone and inositol. In its raw green form, coffee is a super food, with a long list of health benefits. D-glucuronolactone is used for improving alertness and avoiding mental fatigue. Inositol (vitamin B8) can help control stress and anxiety levels. The artificial (synthetic) caffeine contained in most energy drinks is produced from urea and chloroacetic acid. Each six-ounce serving of our natural energy soft-serve contains 175mg of natural caffeine and will give consumers better focus and longer lasting energy with no crash.

BOOZE INFUSED

Our spiked soft serve line, inspired by classic and contemporary cocktails will satisfy those ice cream and booze cravings in one fell swoop. We provide our proprietary liquid base and you add the booze that will give your customers a delicious soft serve buzz that will keep them coming back for more. Made with our premium gelato and dairy-free sorbet flavors, we have created the soft serve version of each of the following cocktails

**Chocolate Mudslide · Dreamsicle · Dark Cherry Margarita · Lynchberg Lemonade
Blueberry Paloma · Strawberry Banana Daiquiri · Peach Bellini · Coconut Mojito**

Ask us about creating a signature frozen soft serve cocktail for your restaurant or bar.

Spumoni

A decadent gelato ice cream cake featuring layers of chocolate, pistachio and cinnamon vanilla gelato infused with candied fruit and a housemade strawberry cream.

Tartufo

This delectable dessert features our premium gelato ice cream encased in delicious coatings including a hard chocolate shell, chopped nuts or even a cookie crumble. Our tartufo is always handmade, so we take great pride in using only the best ingredients available and cut no corners crafting this delicious frozen dessert. Our gelato tartufo was created especially for anyone in the hospitality industry looking for a uniquely different and delicious dessert. In addition to our line of signature tartufo, we can also create a custom tartufo for your restaurant's dessert menu or next big event with this decadent, easy to serve frozen ice cream confection.
